Affiliate marketing is the promoting of products that other people make or for businesses like travel, finance, credit, etc. Marketers publish links online on multiple sites. Affiliates promote your products, and once they make a sale, they earn commissions. Affiliate marketing is successful because many new customers see your products. The customers' interest is peaked when he or she sees a product over and over again. There are two ways of doing affiliate marketing. Either start your affiliate program or become another company's affiliate. For every sale that you make because of affiliate efforts, you pay a commission. Should you opt to have your affiliate program, every purchase means that you pay a commission. If you choose to promote another business on your site, you will earn a commission for every sale you make. Etsy is an online retail community just like eBay only that it focuses on vintage or handcrafted commodities. Most of the goods sold there are in the jewelry, arts, crafts, housewares, artisan candies, baked goods, or paper-goods categories. For an item to qualify as vintage it has to be at least 20 years old and can be anything from photos, costumes, housewares, jewelry, and clothing. Etsy provides a great avenue for you to sell your homemade goods—but that's not all. You can find a limitless number of items on Etsy that will help your home business. For instance, if you use The Happy Planner, Filofax, or Erin Condren to schedule and organize your life or business, there are downloadable stickers and inserts that you can buy and use in your planner. If you need promotional items that have your logo on them; there are a good number of Etsy sellers that can make custom swag for you. They will not only make coffee cups and pens, but also cosmetics, jewelry, bookmarks, and pretty much everything with your logo and name on them. For a very long time, a majority of artisans and craftsman sold their commodities at open markets, fairs, and on consignment. Table of Contents

The word hydroponics originated from Latin that merely means working water. In layman's terms, hydroponics is the art

of growing crops without using soil. When we immediately think of the art of hydroponics, we imagine plants growing with the roots suspended in the water without having any medium. Well, this is true, as it is one form of hydroponics gardening which has been referred to as nutrient film technique or NFT. Just like anything you get into, the first goal to accomplish is having a plan. You will need to consider the space that you have available for gardening. If you are planning to have your gardening indoors in a tight space, ensure there is sufficient space for performing routine maintenance.

Google Assistant is a digital helper that understands audio commands or questions. Other companies have their digital assistants. For example, Apple has Siri and Amazon has the Alexa assistant. Microsoft also owns the Cortana smart digital assistant. The unique aspect about the Google assistant is its ability to hold a conversation. Other assistants give answers to a single question without answering follow up questions. Google assistant has the ability to hold a conversation. You can ask about specific searches or questions and get answers. Google assistant has the ability to store questions if you are offline, until you can access the Internet. Other online assistants do not have this ability. They work only if you are online. Google assistant also requires the Internet to function. But, it can store queries until there is access to the Internet. Google Home is designed with a feature called My Day. The feature gives you news, weather forecast, traffic, your calendar events, reminders and also any future flight status that you might have. The good news is you are able to customize the My Day feature at any time. When you just get your Google Home device, it only supports a few streaming music services. You can either listen to YouTube Music, Google Play Music,

Pandora, and Spotify. Your device will use Google Play Music by default to stream your favorite songs. The iPad Survival Guide organizes the wealth of knowledge about the iPad into one place, where it can be easily accessed and navigated for quick reference. Unlike the official iPad manual, the survival guide is not written like a book in paragraph form. Instead, every instruction is broken down into clear and concise steps. The iPad Survival Guide provides useful information not discussed in the iPad manual, such as tips and tricks, hidden features, troubleshooting advice, as well as advice on how to solve various Wi-Fi issues. You will also learn how to download FREE games and FREE eBooks, how to PRINT right from your iPad, and how to make VOICE CALLS with the use of a simple application. Whereas the official iPad manual is stagnant, this guide goes above and beyond by discussing recent known issues and solutions that may be currently available. This information is constantly revised for a complete, up-to-date manual. This iPad guide includes: Getting Started: - Button Layout - Before First Use - Navigating the Screens - Setting Up Wi-Fi - Setting Up an Email Account - Using Email - Setting Up Your Email Application - Logging In to the Application Store - Photos and Videos - Using iTunes to Import Videos - Sending Pictures via Email - Setting a Picture as Wallpaper - Viewing a Slideshow - Importing Pictures Using iPhoto - Importing Pictures Using a PC - Viewing a Video - Using Skype for Voice Calls and Text Messages Advanced topics: - Downloading Free Applications - Downloading Free Books - Adding Previously Purchased and Free eBooks to iBooks app - Using the Kindle Reader for iPad - Using the iBooks Application - Turning On VoiceOver - Printing Directly from the iPad - Printing Web Pages - Moving a Message to Another Mailbox or Folder - Changing the Default Signature - Setting the Default Account - Changing How You Receive Email - Saving a Picture or Attachment - Managing Contacts - Using Safari Web Browser - Blocking Pop-Up Windows - Managing Applications - Setting a Passcode Lock - Changing Keyboard Settings - Tips and Tricks - Maximizing Battery Life - Solving WiFi issues - Troubleshooting

Apple Music is, to quote the company, "All the ways you love music. All in one place." In non-marketing lingo, Apple Music is built around two major components: iCloud Music Library, which combines your purchased music library and ripped tracks in one place; and the Apple Music streaming catalog, where you can find more than 10 million tracks from artists around the world. These two parts live side by side in the Music app: You can keep each separate by only streaming the Apple Music catalog, or you can add streaming songs to your offline Music library, where they can be mixed into playlists (offline or publicly shareable) or shuffled amongst the rest of your music. Apple Music also offers a massive recommendation and browsing area for its streaming catalog: As you listen to songs in the Music app, Apple collects data about your tastes and drops daily custom-curated playlists in the app for you to listen to, along with a weekly algorithmic "New Music" mix that

suggests songs and artists you might like. You can also poke around the entire streaming catalog's array of new music, curated playlists, music videos, and more. Table of Contents Introduction 1. Signing up for Apple Music 2. Setting up Family Sharing 3. Take Charge of Your iTunes Account 4. Controlling your iTunes Genius 5. iTunes Match 6.
