Guests at Clifford's birthday party learn to count from one to ten, including one giant red dog, two balloons, three presents, four dog friends, five chairs, six trees, seven candles, eight sacks of dog food, nine balls and ten cats.

A highly insightful essay on the culture of dependency and its damaging effects on the moral fiber of society; from corporate welfare to affirmative action, the author takes on the culture of copping out. A book against depression, existential angst, cry-babies and whining "victims," either acting as a child in a candy store or as a martyr of one's own fears. Men against women, women against men, isn't it time to grow up and take charge of our own destiny?

Lonely when his family vacations without him, Clifford, a giant red dog, overcomes wet cement, traffic jams, and toll bridges to rejoin them in the mountains.

Clifford is visiting his family!

Daimonic Reality is a sweeping look at strange, otherworldly events in the world around us -- UFOs, fairies, phantom animals, visions of the Virgin Mary, alien abductions, and mysterious lights in the sky. But rather than simply listing the events, Patrick Harpur shows how they can all be tied together using his concept of Daimonic Reality. Starting with a look at the events themselves, Harpur shows how they are connected by using ideas proposed by Carl Jung and the Romantic poets, William Butler Yeats and William Blake. Harpur connects the old-fashioned fairies to the modern occupants of UFOs. He highlights the similarities in sightings of the older Black Dogs, more recent mysterious cats, and Yetis, Yowies, and Bigfoot. Lights in the sky have existed throughout history; once they were seen as witches, now they are UFOs. The ephemeral materializations of Spiritualism's seances have been replaced by tangible crop circles. And all of them are manifestations of Daimonic Reality.

An epic and intimate firsthand account of a true American hero's daring journey into the heart of the Amazon forest in the nineteenth-century. "Meticulously researched, elegantly argued and deeply humane," Customs in Common describes the complex culture from which working class institutions emerged in England—a panoply of traditions and customs that the new working class fought to preserve well into Victorian times (The New York Times Book Review). This remarkable sequel to E. P. Thompson's influential, landmark volume of social history, The Making of the English Working Class, investigates the gradual disappearance of a range of

cultural customs against the backdrop of the great upheavals of the eighteenth century. As villagers were subjected to a legal system increasingly hostile to custom, they tried both to resist and to preserve tradition, becoming, as Thompson explains, “rebellious, but rebellious in defence of custom.” Although some historians have written of riotous peasants of England and Wales as if they were mainly a problem for magistrates and governments, for Thompson it is the rulers, landowners, and governments who were a problem for the people, whose exuberant culture preceded the formation of working-class institutions and consciousness. Essential reading for all those intrigued by English history, *Customs in Common* has a special relevance today, as traditional economies are being replaced by market economies throughout the world. The rich scholarship and depth of insight in Thompson’s work offer many clues to understanding contemporary changes around the globe. “By providing a fuller sense of the way of life capitalism destroyed, *Customs in Common* helps us understand why the resistance to it was so protracted and tenacious . . . [This] long-awaited collection . . . is a signal contribution . . . [from] the person most responsible for inspiring the revival of American labor history during the past thirty years.” —*The Nation* “This book signals the return to historical writing of one of the most eloquent, powerful and independent voices of our time. At his best he is capable of a passionate, sardonic eloquence which is unequalled.” —*The Observer*

Drawing on a rich trove of documents, including correspondence not seen for 300 years, this study explores the emergence and growth of a remarkable global trade network operated by Armenian silk merchants from a small outpost in the Persian Empire. Based in New Julfa, Isfahan, in what is now Iran, these merchants operated a network of commercial settlements that stretched from London and Amsterdam to Manila and Acapulco. The New Julfan Armenians were the only Eurasian community that was able to operate simultaneously and successfully in all the major empires of the early modern world—both land-based Asian empires and the emerging sea-borne empires—astonishingly without the benefits of an imperial network and state that accompanied and facilitated European mercantile expansion during the same period. This book brings to light for the first time the trans-imperial cosmopolitan world of the New Julfians. Among other topics, it explores the effects of long distance trade on the organization of community life, the ethos of trust and cooperation that existed among merchants, and the importance of information networks and communication in the operation of early modern mercantile communities.

"Adopting the guise of a flaneur, Wilson reconsiders the classical imagery of the city from the viewpoints of diverse groups of women: bourgeois wives, prostitutes, transvestite writers, and others. Its originality resides in its deft, consistently provocative interweaving of underground feminist discourses with the familiar, male-infected rhetorics of urban experience."—Mike Davis, author of *City of Quartz*

Outlines a mystical theology and experience of the

sacred founded on the absence of god. Originally published in 1943, Inner Experience is the single most significant work by one of the twentieth century's most influential writers. It outlines a mystical theology and experience of the sacred founded on the absence of god. Bataille calls Inner Experience a "narrative of despair," but also describes it as a book wherein "profundity and passion go tenderly hand in hand." Herein, he says, "The mind moves in a strange world where anguish and ecstasy take shape." Bataille's search for experience begins where religion, philosophy, science, and literature leave off, where doctrines, dogmas, methods, and the arts collapse. His method of meditation, outlined and documented here, commingles horror and delight. Laughter, intoxication, eroticism, poetry, and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience. This new translation is the first to include Method of Meditation and Post-Scriptum 1953, the supplementary texts Bataille added to create the first volume of his Summa Atheologica. This edition also offers the full notes and annotations from the French edition of Bataille's Oeuvres Complètes, along with an incisive introductory essay by Stuart Kendall that situates the work historically, biographically, and philosophically.
