

## We Beat The Street How A Friendship Pact Led To Success By Sampson Davis George Jenkins Sharon Draper Rameck Hunt

Discover the very special book that has captured the hearts of millions of readers all over the world. 'A wonderful work of art and a wonderful window into the human heart' Richard Curtis A book of hope for uncertain times. Enter the world of Charlie's four unlikely friends, discover their story and their most important life lessons. The boy, the mole, the fox and the horse have been shared millions of times online - perhaps you've seen them? They've also been recreated by children in schools and hung on hospital walls. They sometimes even appear on lamp posts and on cafe and bookshop windows. Perhaps you saw the boy and mole on the Comic Relief T-shirt, Love Wins? Here, you will find them together in this book of Charlie's most-loved drawings, adventuring into the Wild and exploring the thoughts and feelings that unite us all.

Miranda's life is starting to unravel. Her best friend, Sal, gets punched by a kid on the street for what seems like no reason, and he shuts Miranda out of his life. The key that Miranda's mum keeps hidden for emergencies is stolen. And then a mysterious note arrives: 'I am coming to save your friend's life, and my own. I ask two favours. First, you must write me a letter.' The notes keep coming, and Miranda slowly realises that whoever is leaving them knows things no one should know. Each message brings her closer to believing that only she can prevent a tragic death. Until the final note makes her think she's too late.

Follows one young man from his impoverished childhood with a crack-addicted mother, through his discovery of the sport of football, to his rise to become one of the most successful, highly-paid players in the NFL.

The empowering story of Larry Hite's unlikely rise to the top of the hedge fund world—with critical insights and lessons you can take to the bank In The Rule, legendary trader and hedge fund pioneer Larry Hite recounts his working-class upbringing in Brooklyn as a dyslexic, partially blind kid who was anything but a model student—and how he went on to found and run Mint Investment Management Company, one of the most profitable and largest quantitative hedge funds in the world. Hite's wild success is based on his deep understanding that markets are flawed—just like people. Through his early-life struggles and failures, Hite came to know himself well—his fears, his frustrations, his self-doubt, and his tolerance for all of the above. This motivational book reveals that by accepting the facts of his life and of himself, he was able to accept markets as they are. And that was the key to his success. In these pages, you'll walk of the footsteps of an investing legend, who imparts smart, practical trading lessons throughout the journey. Making a successful living in trading isn't about beating the markets. It's about meeting markets where they are, embracing the fact of risk, knowing yourself, and playing it strictly by the numbers. The Rule shows that investing decisions are not only bets or gambles, but investments in time, energy, and attention. By focusing on realistic returns on your investments—versus what you expect or hope to get—you immediately improve your probability for success.

The manager of a top investment fund discusses how individuals can make a killing in the market through research and investment techniques that confound conventional market wisdom.

NEW YORK TIMES BESTSELLER "I come from a family forged by tragedies and bound by a remarkable, unbreakable love," Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In Beautiful Things, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.

Legendary money manager Peter Lynch explains his own strategies for investing and offers advice for how to pick stocks and mutual funds to assemble a successful investment portfolio. Develop a Winning Investment Strategy—with Expert Advice from "The Nation's #1 Money Manager." Peter Lynch's "invest in what you know" strategy has made him a household name with investors both big and small. An important key to investing, Lynch says, is to remember that stocks are not lottery tickets. There's a company behind every stock and a reason companies—and their stocks—perform the way they do. In this book, Peter Lynch shows you how you can become an expert in a company and how you can build a profitable investment portfolio, based on your own experience and insights and on straightforward do-it-yourself research. In Beating the Street, Lynch for the first time explains how to devise a mutual fund strategy, shows his step-by-step strategies for picking stock, and describes how the individual investor can improve his or her investment performance to rival that of the experts. There's no reason the individual investor can't match wits with the experts, and this book will show you how.

A NEW YORK TIMES BESTSELLER A remarkable story about the power of friendship. Chosen by Essence to be among the forty most influential African Americans, the three doctors grew up in the streets of Newark, facing city life's temptations, pitfalls, even jail. But one day these three young men made a pact. They promised each other they would all become doctors, and stick it out together through the long, difficult journey to attaining that dream. Sampson Davis, George Jenkins, and Rameck Hunt are not only friends to this day—they are all doctors. This is a story about joining forces and beating the odds. A story about changing your life, and the lives of those you love most... together.

NEW YORK TIMES AND SUNDAY TIMES BUSINESS BESTSELLER THE GRIPPING STORY OF HOW A WORLD-CLASS MATHEMATICIAN AND FORMER CODE BREAKER MASTERED THE MARKET

When Jim Simons hired physicists, mathematicians and computer scientists to form a hedge fund, experts scoffed. These people would become some of the richest in the world, amassing piles of data and building algorithms that would find the deeply hidden patterns in global markets. Taking the name Renaissance, the company's executives soon began exerting influence outside of the financial world. While Simons became a major figure in scientific research, education, and liberal politics, his senior executive Robert Mercer has been credited with Trump's victorious presidential candidacy and helping steer the UK towards Brexit. Drawing on unprecedented access to Simons and dozens of his employees, Zuckerman, a veteran Wall Street Journal investigative reporter, paints a portrait of a modern-day Midas who remade markets in his own image, but failed to anticipate how his success would impact his firm, his country and the world. SHORTLISTED FOR THE FT & MCKINSEY BUSINESS BOOK OF THE YEAR 'Reads more like a delicious page-turning novel' Bloomberg 'A compelling read' Economist 'Captivating' New York Times book review

Can a song change a nation? In 1964, Marvin Gaye, record producer William "Mickey" Stevenson, and Motown songwriter Ivy Jo Hunter wrote "Dancing in the Street." The song was recorded at Motown's Hitsville USA Studio by Martha and the Vandellas, with lead singer Martha Reeves arranging her own vocals. Released on July 31, the song was supposed to be an upbeat dance recording—a precursor to disco, and a song about the joyousness of dance. But events overtook it, and the song became one of the icons of American pop culture. The Beatles had landed in the U.S. in early 1964. By the summer, the sixties were in full swing. The summer of 1964 was the Mississippi Freedom Summer, the Berkeley Free Speech Movement, the beginning of the Vietnam War, the passage of the Civil Rights Act, and the lead-up to a dramatic election. As the country grew more radicalized in those few months, "Dancing in the Street" gained currency as an activist anthem. The song took on new meanings, multiple meanings,

for many different groups that were all changing as the country changed. Told by the writer who is legendary for finding the big story in unlikely places, Ready for a Brand New Beat chronicles that extraordinary summer of 1964 and showcases the momentous role that a simple song about dancing played in history.

In 1956, two Bell Labs scientists discovered the scientific formula for getting rich. One was mathematician Claude Shannon, neurotic father of our digital age, whose genius is ranked with Einstein's. The other was John L. Kelly Jr., a Texas-born, gun-toting physicist. Together they applied the science of information theory—the basis of computers and the Internet—to the problem of making as much money as possible, as fast as possible. Shannon and MIT mathematician Edward O. Thorp took the "Kelly formula" to Las Vegas. It worked. They realized that there was even more money to be made in the stock market. Thorp used the Kelly system with his phenomenally successful hedge fund, Princeton-Newport Partners. Shannon became a successful investor, too, topping even Warren Buffett's rate of return. Fortune's Formula traces how the Kelly formula sparked controversy even as it made fortunes at racetracks, casinos, and trading desks. It reveals the dark side of this alluring scheme, which is founded on exploiting an insider's edge. Shannon believed it was possible for a smart investor to beat the market—and William Poundstone's Fortune's Formula will convince you that he was right.

A colourful illustrated children's picture book prequel to the worldwide bestseller A Street Cat Named Bob and The World According to Bob – perfect for very young fans. A moving and uplifting tale about one cat in search of a friend that will melt your heart. "[Bob] has entranced London like no feline since the days of Dick Whittington" Evening Standard

Recounts the story of how a notorious gang of MIT blackjack savants devised and received backing for a system for winning at the world's most sophisticated casinos, an endeavor that earned them more than three million dollars. Originally published as Bringing Down the House. Reissue. (A Columbia Pictures film, written by Peter Steinfeld & Allan Loeb, directed by Robert Luketic, releasing March 2008, starring Kevin Spacey, Kate Bosworth, Laurence Fishburne, Jim Sturgess, & others) (Current Affairs)

Patrick O'Brian can put a spark of character into the sawdust of time- Observer The best historical novels ever written- New York Times

The unusual and often stunning world of tramp art is revealed in an illustrated introduction to this unique art form, which was mostly created by itinerant artists and often exchanged for food during the Depression.

'Amazon Unbound' is an unvarnished picture of Amazon's unprecedented growth and its billionaire founder, Jeff Bezos, revealing the most important business story of our time. From the author of 'The Everything Store'.

**THE INCREDIBLE AS-IT-HAPPENED STORY OF LEICESTER CITY'S MARCH TO PREMIER LEAGUE VICTORY** In August 2015 bookmakers priced Leicester at 5000-1 to win the Premier League – the same odds as Elvis being found alive. On 2 May 2016, the impossible happened – Leicester won, to ecstatic celebrations in the city and around the world. Relive this remarkable season with Rob Tanner, the Leicester Mercury's chief football writer, from the great escape of 2015 to the curtain-closer at Stamford Bridge, via Ulloa's last-gasp winner at Norwich and Vardy's stunning volley against Liverpool. Detailing the key matches and turning points, Tanner's book tells the inside story of Leicester City's heroic year of triumph – and the players who under Claudio Ranieri's inspired leadership became the most unlikely champions in football history.

\$20,000 to \$2 million in only three years— the greatest stock-picker you never heard of tells you how you can do it too Chris Camillo is not a stockbroker, financial analyst, or hedge fund manager. He is an ordinary person with a knack for identifying trends and discovering great investments hidden in everyday life. In early 2007, he invested \$20,000 in the stock market, and in three years it grew to just over \$2 million. With Laughing at Wall Street, you'll see:

- How Facebook friends helped a young parent invest in the wildly successful children's show, Chuggington—and saw her stock values climb 50%
- How an everyday trip to 7-Eleven alerted a teenager to short Snapple stock—and tripled his money in seven days
- How \$1000 invested consecutively in Uggs, True Religion jeans, and Crocs over five years grew to \$750,000
- How Michelle Obama caused J. Crew's stock to soar 186%, and Wall Street only caught up four months later!

Engaging, narratively-driven, and without complicated financial analysis, Camillo's stock picking methodology proves that you do not need large sums of money or fancy market data to become a successful investor.

Beat Wall Street & Gain Great Long-Term Returns Using Proven Investment Tools & Information Straight From a Seasoned Investor! What are your beliefs for investing, or what would you like it to be? Are your beliefs empowering or disempowering? Have you made or lost money? Investing in the stock market presents a myriad of opportunities to build and store lasting wealth. In fact, a 2019 study found that stocks have decisively outpaced bonds and cash, making them the most profitable investment over the last 120 years. However, you don't need to empty your entire savings account just so you can invest in high-fee unit trusts, or complex hedge funds, nor do you absolutely have to hire a Wall Street professional to do your investing for you. Truth be told, you don't need an advanced degree in finance to make it big in the stock market. All you need is to give yourself adequate time, cultivate the right mindset, and - of course - add "Vision Investing" in your toolkit. "Vision Investing" is by Eugene Ng, seasoned investor and Founder and Chief Investment Officer of Vision Capital. Since its inception in 2017, Vision Capital has consistently outperformed the S&P 500 every year, returning +143.0% versus +30.1% for the benchmark. Vision Capital seeks to bring the vision of a better collective global future to life by only investing in innovative, technology-driven companies that create positive, meaningful impact in the world. In his book, beginners like you will get proven strategies and evidence-based information on how to go above and beyond the average investor, build your own wealth, beat Wall Street by a long shot, and bring the vision of a better collective global future to life! Over the course of this game-changing guide, you will: Quickly learn why long-term investments provide better, more rewarding yields than short-term trades Make full use of your advantages as an individual investor and gain an edge over Wall Street and finance professionals using evidence-based strategies Pick winning, values-centered companies to invest in within your own industry without the need to hire a professional And so much more! "Wall Street is the only place that people ride to in a Rolls Royce to get advice from those who take the subway." - Warren Buffett With the help of this book, you will be able to learn how to avoid the mediocre and become a full-fledged shareholder who invests and owns shares in some of the best values-driven businesses out there, all while contributing to the vision of a better tomorrow for all! Scroll up, Click on "Buy Now with 1-Click", and Beat Wall Street Today!

A New York Times bestseller! "Lively and absorbing. . ." — The New York Times Book Review "Engrossing." —Wall Street Journal "Entertaining and well-researched . . ." —Houston Chronicle Three noted Texan writers combine forces to tell the real story of the Alamo, dispelling the myths, exploring why they had their day for so long, and explaining why the ugly fight about its meaning is now coming to a head. Every nation needs its creation myth, and since Texas was a nation before it was a state, it's no surprise that its myths bite deep. There's no piece of history

more important to Texans than the Battle of the Alamo, when Davy Crockett and a band of rebels went down in a blaze of glory fighting for independence from Mexico, losing the battle but setting Texas up to win the war. However, that version of events, as Forget the Alamo definitively shows, owes more to fantasy than reality. Just as the site of the Alamo was left in ruins for decades, its story was forgotten and twisted over time, with the contributions of Tejanos--Texans of Mexican origin, who fought alongside the Anglo rebels--scrubbed from the record, and the origin of the conflict over Mexico's push to abolish slavery papered over. Forget the Alamo provocatively explains the true story of the battle against the backdrop of Texas's struggle for independence, then shows how the sausage of myth got made in the Jim Crow South of the late nineteenth and early twentieth century. As uncomfortable as it may be to hear for some, celebrating the Alamo has long had an echo of celebrating whiteness. In the past forty-some years, waves of revisionists have come at this topic, and at times have made real progress toward a more nuanced and inclusive story that doesn't alienate anyone. But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect time for a wise and generous-spirited book that shines the bright light of the truth into a place that's gotten awfully dark.

For Making Sense of Investing Today...the Fully Revised and Expanded Edition of the Bestselling The Motley Fool Investment Guide Today, with the Internet, anyone can be an informed investor. Once you learn to tune out the hype and focus on meaningful factors, you can beat the Street. A New York Times bestseller In a remarkable career, Edward O. Thorp rose up from nothing to become a professor at MIT, invented card counting and the world's first wearable computer, beat the casinos of Las Vegas at blackjack and roulette, then became a bestselling author and a hedge fund heavyweight, ushering in a revolution on Wall Street. Now he shares his incredible life story for the first time, revealing how he made his fortune and giving advice to the next generation of investors. An intellectual thrill ride, replete with practical wisdom, A Man for All Markets is a scarcely imaginable tale of ludicrous success.

Train your brain to be a real contrarian and outsmart the crowd Beat the Crowd is the real contrarian's guide to investing, with comprehensive explanations of how a true contrarian investor thinks and acts -- and why it works more often than not. Bestselling author Ken Fisher breaks down the myths and cuts through the noise to present a clear, unvarnished view of timeless market realities, and the ways in which a contrarian approach to investing will outsmart the herd. In true Ken Fisher style, the book explains why the crowd often goes astray--and how you can stay on track. Contrarians understand how headlines really affect the market and which noise and fads they should tune out. Beat the Crowd is a primer to the contrarian strategy, teaching readers simple tricks to think differently and get it right more often than not. Discover the limits of forecasting and how far ahead you should look Learn why political controversy matter less the louder it gets Resurrect long-forgotten, timeless tricks and truths in markets Find out how the contrarian approach makes you right more often than wrong A successful investment strategy requires information, preparation, a little bit of brainpower, and a larger bit of luck. Pursuit of the mythical perfect strategy frequently lands folks in a cacophony of talking heads and twenty-four hour noise, but Beat the Crowd cuts through the mental clutter and collects the pristine pieces of actual value into a tactical approach based on going against the grain.

The football star made famous in the hit film (and book) The Blind Side reflects on how far he has come from the circumstances of his youth. Michael Oher shares his personal account of his story, in this inspirational New York Times bestseller. Looking back on how he went from being a homeless child in Memphis to playing in the NFL, Michael talks about the goals he had to break out of the cycle of poverty, addiction, and hopelessness that trapped his family. Eventually he grasped onto football as his ticket out and worked hard to make his dream into a reality. With his adoptive family, the Touhys, and other influential people in mind, he describes the absolute necessity of seeking out positive role models and good friends who share the same values to achieve one's dreams. Sharing untold stories of heartache, determination, courage, and love, I Beat the Odds is an incredibly rousing tale of one young man's quest to achieve the American dream.

From the NPR host of The Indicator podcast and correspondent for Planet Money comes a guide for how today's women can apply the principles of 16th-century philosopher Niccol Machiavelli to their work lives and finally shatter the glass ceiling once and for all--perfect for fans of Feminist Fight Club, Lean In, and Nice Girls Don't Get the Corner Office. Women have been making strides towards equality for decades, or so we're so often told. They've been increasingly entering male-dominated areas of the workforce and consistently surpassing their male peers in grades, university attendance, and degrees. They've recently stormed the political arena with a vengeance. But despite all of this, the payoff is--quite literally--not there: the gender pay gap has held steady at about 20% since 2000. And the number of female CEOs for Fortune 500 companies has actually been declining. So why, in the age of #MeToo and #TimesUp, is the glass ceiling still holding strong? And how can we shatter it for once and for all? Stacy Vanek Smith's advice: ask Machiavelli. Using The Prince as a guide and with charm and wit, Smith applies Renaissance politics to the 21st century, and demonstrates how women can take and maintain power in careers where they have long been cast as second-best. Based on the latest research, tips from successful women across many industries, and experiences from Smith's own life, Machiavelli for Women is a powerful, entertaining, and inspirational guide for a new generation of successful women.

An exuberant celebration of dance and play in picture book form, based on Charlotte Caffey's joyful classic made famous by the Go-Go's. See the people walking down the street Fall in line just watching all their feet They don't know where they want to go But they're walking in time They got the beat... We Got the Beat is a children's picture book based on the hit song by the 1980s new wave group the Go-Go's. Consisting of five members, the all-female band rocked the nation with their charisma and musical genius. Their hit song "We Got the Beat" spent three weeks at #2 on the Billboard 100 and became their signature song. Says the New York Times: the Go-Go's "taught a new generation the power of the girl gang." With lyrics by Go-Go's

member Charlotte Caffey and illustrations by Kaitlyn Shea O'Connor, this picture book tells the story of what it is like to live life dancing to the beat, while enjoying friends, nature, and the fun that surrounds you. We Got the Beat will make both parents and children get their groove on and show off their best dance moves. "Songs like 'We Got the Beat' were built with a timeless durability as solidly constructed as a Motown hit." --New York Times

Three boys, who made a pact to stick together through the rough times in their impoverished Newark neighborhood, found the strength to work through their difficulties and complete high school, college, and medical school together.

This tale of money, love, and the pursuit of the American dream constitutes the quintessential portrait of Jazz Age America. Fitzgerald's luminous prose depicts both the era's glamour and its seedy underside.

Sylvia is shocked and confused when she is asked to be one of the first black students to attend Central High School, which is scheduled to be integrated in the fall of 1957, whether people like it or not. Before Sylvia makes her final decision, smoldering racial tension in the town ignites into flame. When the smoke clears, she sees clearly that nothing is going to stop the change from coming. It is up to her generation to make it happen, in as many different ways as there are colors in the world.

A riveting personal exploration of the healthcare crisis facing inner-city communities, written by an emergency room physician who grew up in the very neighborhood he is now serving Sampson Davis is best known as one of three friends from inner-city Newark who made a pact in high school to become doctors. Their book *The Pact* and their work through the Three Doctors Foundation have inspired countless young men and women to strive for goals they otherwise would not have dreamed they could attain. In this book, Dr. Davis looks at the healthcare crisis in the inner city from a rare perspective: as a doctor who works on the front line of emergency medical care in the community where he grew up, and as a member of that community who has faced the same challenges as the people he treats every day. He also offers invaluable practical advice for those living in such communities, where conditions like asthma, heart disease, stroke, obesity, and AIDS are disproportionately endemic. Dr. Davis's sister, a drug addict, died of AIDS; his brother is now paralyzed and confined to a wheelchair as a result of a bar fight; and he himself did time in juvenile detention—a wake-up call that changed his life. He recounts recognizing a young man who is brought to the E.R. with critical gunshot wounds as someone who was arrested with him when he was a teenager during a robbery gone bad; describes a patient whose case of sickle-cell anemia rouses an ethical dilemma; and explains the difficulty he has convincing his landlord and friend, an older woman, to go to the hospital for much-needed treatment. With empathy and hard-earned wisdom, *Living and Dying in Brick City* presents an urgent picture of medical care in our cities. It is an important resource guide for anyone at risk, anyone close to those at risk, and anyone who cares about the fate of our cities. Praise for *Living and Dying in Brick City* "A pull-no-punches look at health care from a seldom-heard sector . . . Living and Dying isn't a sky-is-falling chronicle. It's a real, gutsy view of a city hospital."—*Essence* "Gripping . . . a prescription to help kids dream bigger than their circumstances, from someone who really knows."—*People* "[Dr. Davis] is really a local hero. His story has inspired so many of our young people, and he's got his finger on the pulse of what is a challenge in Newark, and frankly all across America. . . . I think his book is going to make a big impact."—*Cory Booker* "Some memoirs are heartfelt, some are informative and some are even important. Few, however, are all three. . . . As rare as it is for a book to be heartfelt, well written and inspirational, it's even rarer for a critic to say that a book should be required reading. This ought to be included in high school curricula—for the kids in the suburbs who have no idea what life is like in the inner cities, and for the kids in the inner cities to know that there is a way out."—*The Star-Ledger* "Dramatic and powerful."—*New York Daily News* "This book just might save your life. Sampson Davis shares fascinating stories from the E.R. and addresses the inner-city health crisis. His book is an important investment in your most valuable resource: your health."—*Suze Orman*, author of *The Money Class*

Picking up where *Quiet* ended, *How to Be Yourself* is the best book you'll ever read about how to conquer social anxiety. "This book is also a groundbreaking road map to finally being your true, authentic self." —*Susan Cain*, *New York Times*, *USA Today* and nationally bestselling author of *Quiet* Up to 40% of people consider themselves shy. You might say you're introverted or awkward, or that you're fine around friends but just can't speak up in a meeting or at a party. Maybe you're usually confident but have recently moved or started a new job, only to feel isolated and unsure. If you get nervous in social situations—meeting your partner's friends, public speaking, standing awkwardly in the elevator with your boss—you've probably been told, "Just be yourself!" But that's easier said than done—especially if you're prone to social anxiety. Weaving together cutting-edge science, concrete tips, and the compelling stories of real people who have risen above their social anxiety, Dr. Ellen Hendriksen proposes a groundbreaking idea: you already have everything you need to succeed in any unfamiliar social situation. As someone who lives with social anxiety, Dr. Hendriksen has devoted her career to helping her clients overcome the same obstacles she has. With familiarity, humor, and authority, Dr. Hendriksen takes the reader through the roots of social anxiety and why it endures, how we can rewire our brains through our behavior, and—at long last—exactly how to quiet your Inner Critic, the pesky voice that whispers, "Everyone will judge you." Using her techniques to develop confidence, think through the buzz of anxiety, and feel comfortable in any situation, you can finally be your true, authentic self.

This is definitive take on the wildest story of the year—the David-vs.-Goliath GameStop short squeeze, a tale of fortunes won and lost overnight that may end up changing Wall Street forever. About the Book The book is titled: *Life in the Unknown*, and sub-titled; *Let the free thinkers speak*. The title is taken from one of my favorite poems in the book; it should be an interesting read. This title wasn't the initial plan however, but it should call for interesting conversation in book signing. A part from the being a poetry book, there is no one classification or category that can be placed on the materials, which might come across as; controversial, edgy, insensitive, polarizing, funny, gritty, but yet it should come across as honest, and possibly witty. This book is aimed at challenging life and its imperfection, since we ourselves are imperfect, then judgment is therefore minimal; one to another respectively.

Jamaica's literary lion Colin Channer presents new fiction from the freshest young Jamaican authors.

Winner, Kirkus Prize for Non-Fiction, 2015 In the 150 years since the end of the Civil War and the ratification of the Thirteenth Amendment, the story of race and America has

remained a brutally simple one, written on flesh: it is the story of the black body, exploited to create the country's foundational wealth, violently segregated to unite a nation after a civil war, and, today, still disproportionately threatened, locked up and killed in the streets. What is it like to inhabit a black body and find a way to live within it? And how can America reckon with its fraught racial history? *Between the World and Me* is Ta-Nehisi Coates' attempt to answer those questions, presented in the form of a letter to his adolescent son. Coates shares with his son the story of his own awakening to the truth about history and race through a series of revelatory experiences: immersion in nationalist mythology as a child; engagement with history, poetry and love at Howard University; travels to Civil War battlefields and the South Side of Chicago; a journey to France that reorients his sense of the world; and pilgrimages to the homes of mothers whose children's lives have been taken as American plunder. Taken together, these stories map a winding path towards a kind of liberation—a journey from fear and confusion, to a full and honest understanding of the world as it is. Masterfully woven from lyrical personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* offers a powerful new framework for understanding America's history and current crisis, and a transcendent vision for a way forward. Ta-Nehisi Coates is a national correspondent for the Atlantic and the author of the memoir *The Beautiful Struggle*. Coates has received the National Magazine Award, the Hillman Prize for Opinion and Analysis Journalism, and the George Polk Award for his Atlantic cover story 'The Case for Reparations'. He lives in New York with his wife and son. 'Coates offers this eloquent memoir as a letter to his teenage son, bearing witness to his own experiences and conveying passionate hopes for his son's life...this moving, potent testament might have been titled *Black Lives Matter*.' Kirkus Reviews 'I've been wondering who might fill the intellectual void that plagued me after James Baldwin died. Clearly it is Ta-Nehisi Coates. The language of *Between the World and Me*, like Coates' journey, is visceral, eloquent and beautifully redemptive. And its examination of the hazards and hopes of black male life is as profound as it is revelatory. This is required reading.' Toni Morrison 'Extraordinary...Ta-Nehisi Coates...writes an impassioned letter to his teenage son—a letter both loving and full of a parent's dread—counselling him on the history of American violence against the black body, the young African-American's extreme vulnerability to wrongful arrest, police violence, and disproportionate incarceration.' David Remnick, *New Yorker* 'A searing meditation on what it means to be black in America today...as compelling a portrait of a father-son relationship as Martin Amis's *Experience* or Geoffrey Wolff's *The Duke of Deception*.' *New York Times* 'Coates possesses a profoundly empathetic imagination and a tough intellect...Coates speaks to America, but Australia has reason to listen.' *Monthly* 'Heartbreaking, confronting, it draws power from understatement in dealing with race in America and the endless wrong-headed concept that whites are somehow entitled to subjugate everyone else.' *Capital* 'In our current global landscape it's an essential perspective, regardless of your standpoint.' *Paperboy*

In 2005, Joel Greenblatt published a book that is already considered one of the classics of finance literature. In *The Little Book that Beats the Market*—a *New York Times* bestseller with 300,000 copies in print—Greenblatt explained how investors can outperform the popular market averages by simply and systematically applying a formula that seeks out good businesses when they are available at bargain prices. Now, with a new Introduction and Afterword for 2010, *The Little Book that Still Beats the Market* updates and expands upon the research findings from the original book. Included are data and analysis covering the recent financial crisis and model performance through the end of 2009. In a straightforward and accessible style, the book explores the basic principles of successful stock market investing and then reveals the author's time-tested formula that makes buying above average companies at below average prices automatic. Though the formula has been extensively tested and is a breakthrough in the academic and professional world, Greenblatt explains it using 6th grade math, plain language and humor. He shows how to use his method to beat both the market and professional managers by a wide margin. You'll also learn why success eludes almost all individual and professional investors, and why the formula will continue to work even after everyone "knows" it. While the formula may be simple, understanding why the formula works is the true key to success for investors. The book will take readers on a step-by-step journey so that they can learn the principles of value investing in a way that will provide them with a long term strategy that they can understand and stick with through both good and bad periods for the stock market. As the *Wall Street Journal* stated about the original edition, "Mr. Greenblatt...says his goal was to provide advice that, while sophisticated, could be understood and followed by his five children, ages 6 to 15. They are in luck. His 'Little Book' is one of the best, clearest guides to value investing out there."
